

Quarterly Complaints Monitoring Report

Quarter 1 2024/25: 1 April to 30 June

This report outlines Dumfries and Galloway Council's performance for Quarter 1 in 2024/25. It provides information relating to the Council's quarterly performance in the handling of complaints against a group of Key Performance Indicators (KPIs) set out by the Scottish Public Services Ombudsman (SPSO). Regularly reporting the analysis of complaints information helps to inform management of where services need to improve.

In March 2022, the SPSO published revised KPI guidance which applies to all Local Authorities. The revised set of standardised complaints KPIs are applicable for data collected from 1 April 2022. Within the revised guidance there are four mandatory quantitative KPIs (as detailed below). It is a minimum requirement for all organisations to:

- report at least quarterly to senior management on the KPIs and analysis of the trends and outcomes of complaints
- publish on a quarterly basis information on complaints outcomes and actions taken to improve services, i.e. good practice and lessons learned
- publish an annual complaints performance report on their website that includes performance statistics in line with the KPIs, complaint trends and actions that have been taken or will be taken to improve services as a result.

Our quarterly and annual complaints monitoring reports are published on the Council website available here: <https://www.dumgal.gov.uk/complaintsprocedure>

The SPSOs Model Complaints Handling Procedure also features qualitative measures, which include a statement about learning from complaints; raising awareness among vulnerable groups; staff training and customer satisfaction, however, these are not mandatory.

The Council remains committed to listening to our customers and using customer feedback to actively change and improve the way we do things.

Definitions:

Dumfries and Galloway Council's definition of a complaint is, 'an expression of dissatisfaction by one or more members of the public about our Council action or lack of action, or about the standard of service provided by or on behalf of our Council.'

Stages:

Stage One – complaints received and closed at Stage One (Frontline Response)

Stage Two (direct) – complaints that by-passed Stage One and went directly to Stage Two (Investigation). This could be complex complaints, complaints that relate to serious, high-risk or high profile issues or the customer refuses to engage at Stage One (Frontline Response).

Stage Two Escalated – complaints which were dealt with initially at Stage One and were subsequently escalated to Stage Two (Investigation). This is usually because the customer is dissatisfied with their Stage one response.

Outcomes:

Resolved – A complaint is resolved when both the organisation and the customer agree what action (if any) will be taken to provide full and final resolution for the customer, without making a decision about whether the complaint is upheld or not upheld

Upheld – Means the service did not reach the standard that is expected. (Something has gone wrong)

Partially Upheld - This would be used where the organisation found that there was evidence of service failure in one or more elements of the complaint, even if other parts of the complaint were not upheld

Not Upheld – Means that the service provided was of a standard that is expected.

This is the sum of the number of complaints received at Stage 1 (this includes escalated complaints, as they were first received at Stage 1), and the number of complaints received directly at Stage 2.

Description	Q1 1 April to 30 June 2024

Indicator Two: the number and percentage of complaints at each stage that were closed in full within the set timescales of five and 20 working days

The CHP requires complaints to be closed within five working days at stage 1 and 20 working days at stage 2. The term “closed” refers to a complaint that has had a response sent to the customer and at the time no further action is required (regardless at which stage it is processed and whether any further escalation takes place).

Description	Number	Percentage
The number of complaints closed in full at Stage 1 within five working days as % of all stage 1 complaints responded to in full (Target – 80%)	107	84.9%
The number of complaints closed in full at Stage 2 within 20 working days as % of all stage 2 complaints responded to in full (Target – 80%)	9	75.0%
The number of complaints closed in full after escalation within 20 working days as % of all complaints responded to in full after escalation (Target – 80%)	12	85.7%

Indicator Three: the average time in working days for a full response to complaints at each stage

This indicator represents the average time in working days for a full response to complaints at each stage.

Description	Working days
The average time in working days to respond to complaints at Stage 1 (target – 5 working days)	4.8 w/d
The average time in working days to respond to complaints at Stage 2 (target – 20 working days)	22.4 w/d
The average time in working days to respond to complaints after escalation (target – 20 working days)	19.3 w/d

The number and percentage of complaints at each stage where an extension to the 5 or 20 working day timeline was applied

There are times when an extension to the timescales may be necessary. Extensions must be agreed with an appropriate manager. We must keep the customer updated on the reason for the delay and give them a revised timescale for completion. This indicator outlines the number and percentage of complaints at each stage where an extension to the 5 or 20 working day timeline was applied.

Description	Number	Percentage
Number and percentage of complaints at Stage 1 where extension was applied	16	12.7%
Number and percentage of complaints at Stage 2 where extension was applied	3	25.0%
Number and percentage of escalated complaints where extension was applied	2	14.3%

Dumfries and Galloway Council Quarterly Complaints Monitoring Report

Of the 21 complaints where an authorised extension was applied. They were extended for the following reasons:

Reason for extension	Number of cases
Unable to obtain essential information within timescale	12
Essential information unavailable due to long-term sick, leave or professional hearings	3
Meeting with customer	3
Complexity of issue(s)	2
Lack of response from customer	1

Indicator Four: the outcome of complaints at each stage

There is a requirement for the outcome to be recorded for each complaint. There are four outcome categories: resolved, upheld, partially upheld or not upheld. Where some of the points of complaint are upheld and others are not, this should be reported as 'partially upheld'. If a customer complains about two or more completely distinct topics, these should be treated as two or more complaints. This indicator provides information on the number of complaints which were resolved, upheld, partially upheld or not upheld at each stage as a percentage of complaints closed (*responded to*) in full at each stage.

Learning from Complaints

We should embrace all the feedback we receive to gain a better understanding of our customers reasons for complaining then engage with our staff on ways to improve. One of the most important aspects of the Complaints Handling Procedure is to learn from the feedback we receive from our customers. The examples below demonstrate service improvements and/or changes that have been made to Council services as a result of our learning from the key themes of complaints.

Improvement work undertaken

Staff training on Complaints

The emphasis in our Complaints Handling Procedure (CHP) is on quicker, simpler and more streamlined complaints handling with local, early resolution by empowered and well-trained staff. Training that has been provided to staff to help drive improvements in performance is detailed below.

Staff training provided

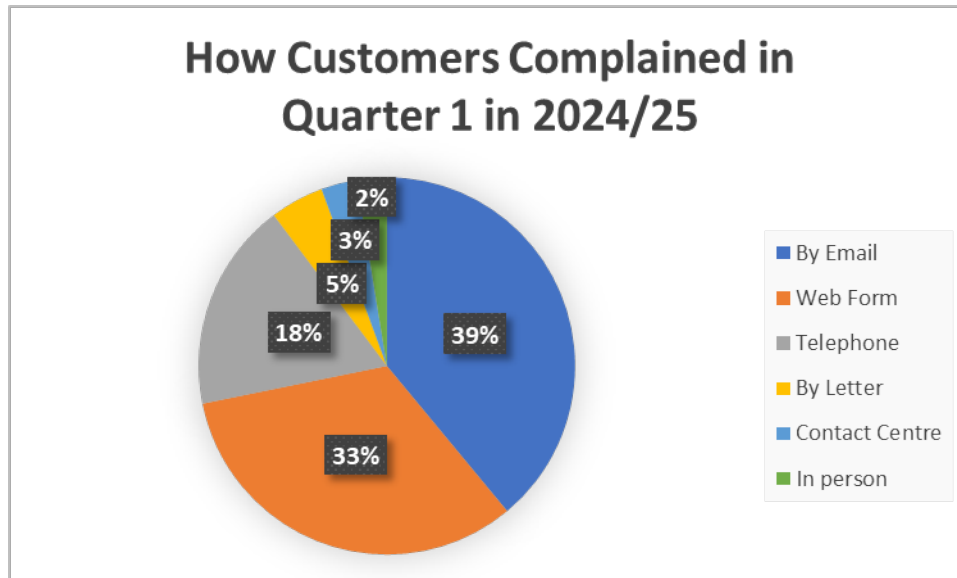

Within this quarter we have continued to work with services to update our list of Investigating Officers (IO) for the complaints process and asked them to nominate new people to attend the new SPSO Online Complaints Investigation Skills (CIS) course or identify existing IO's to undertake refresher training. This course is aimed at staff who investigate complaints at Stage 2 of the Model Council's Complaints Handling procedure (CHP). We have now broadened the pool of staff who can undertake investigations which means this workload can be better managed across services so that there is more staff who have the time and the ability as well as the right skill set to undertake such investigations when required.

Stage 2 - SPSO Complaints Investigation Skills training course – The Information Governance Team (IGT) have been coordinating the booking of this training for services and in this reporting period three Officers have completed this online training.
